11. POLL MERINO STANDARDS

The following definitions will apply as standards to be observed when Poll Merinos are exhibited at shows or offered for sale as a stud poll sheep

- a) For a ram to be classed as a poll merino ram it must:
 - i) be sired by a merino ram or a poll merino ram out of a merino ewe or poll merino ewe, and
 - ii) Have a concavity in the bone of the skull on the horn site. A bone knob or small scur maybe set in the concavity of the skull (Note: a scur is a horny growth not attached to the frontal bone)
 - iii) Not to have a scur or bone knob either of which measures more than 25mm in diameter across the widest part of its base
 - iv) If in the opinion of the inspection committee the scurs have been deliberately tampered with, the sheep will be disqualified.
- b) For a ewe to be classed as a poll merino ewe it must:
 - i) Be sired by a merino or poll merino ram, out of a merino or poll merino ewe, and
 - ii) Have concavity in the bone of the skull on the horn site.
 - iii) Have no sign of any horn growth or bone knob set in the concavity.

12. AUTUMN CLASS RULES

- a) All sheep are to be tagged. March regulation shorn.
- b) Classes can be split depending on entries.
- c) Autumn shorn sheep not eligible for Open Championships
