

An Invitation is extended to men to support the activities of The Williams Men's Shed by becoming a member.

By becoming a member (whether active or not) you will be helping to achieve the goals of The Williams Men's Shed.

The Williams Men's Shed supports men's health and well-being by offering men a safe and busy environment where they can improve their physical, mental & social health. It provides an opportunity to improve their self worth, value to the community, connectivity and purpose in life.

The need for this project is demonstrated and supported by the experiences of established men's sheds throughout Australia. Older men in rural areas feel comfortable in a shed where they can socialize, use their practical skills and contribute to the community, which in turn leads to their better health and well-being.

As well as acquiring a permanent facility (The Shed) to undertake our activities and on-going social interaction amongst members and the community, our objectives also include developing a wider range of projects for all members. We are developing programs that promote the better health and wellbeing of our members and the wider community. We aim to undertake community development and support activities that include the youth, environment, technology, training and health and to promote mentorship. We intend to build sustainability while conducting a well managed and well operated community based organisation.

The Williams Men's Shed currently has two regular meetings per week (Tuesday and Saturday) and activities for members include monthly BBQ's, health and other information sessions. The range of activities is increasing, fund-raising opportunities are being pursued and community involvement now includes being an active partner of the Williams Gateway Expo and the Williams Repertory Society. As there are no "service clubs" like Lions, Apex, etc. there is a need for further involvement by the Men's Shed within the district.

Please check website www.williams.wa.au/williams-men-s-shed/

Thank you for your support .

Chairman Lawrence Rose ph: 0438 858 048

Secretary Bob Baker ph: 0429 960 953
